PROFESSIONAL SUMMARY

Web Developer and Computer Science undergraduate with experience in building web applications using React, Next js, Node js, Express js, Nest js, and MongoDB. Experienced in REST API development, JWT authentication, state management using Redux, and integration of Cloudinary, AI APIs, and real time communication using Socket io. Focused on building scalable and responsive web applications.

SKILLS

Languages: TypeScript, JavaScript, C++

Frontend: React, Next js, Tailwind CSS, Redux Toolkit, Axios

Backend: Node js, Express js, Nest js, REST APIs, Socket io, JWT Authentication

Database: MongoDB, PostgreSQL (Basic)

Cloud/Media: Cloudinary, Vercel, Netlify, Resend

Tools: Git, GitHub, Docker (Basic), Vercel, Cloudinary

PROJECT EXPERIENCE

ClassFlow Prime — Education Management Platform | Self-Employed | Dhaka, Bangladesh | Jan 2026 – Present

[Live Site](#) | [GitHub](#) | Next js, React, Nest js, MongoDB, Redux Toolkit, Cloudinary

- Architected a full-stack monorepo with Next.js frontend and NestJS backend, featuring class creation/enrollment, routine scheduling, member & faculty role management, and class group organization
- Implemented JWT authentication with HTTP-only cookies, OTP-based email verification, and password reset flows using Nodemailer
- Built a push notification system (Web Push API) with notification center supporting real-time class updates, member changes, and faculty assignments
- Designed an AI agent system where agents post class updates on behalf of instructors, with agent search and permission management across classes

Nexion — Classroom Collaboration & Messaging Platform | Self-Employed | Dhaka, Bangladesh | Jan 2024 – Dec 2025

[GitHub](#) | Next js, React, Express js, MongoDB, Socket io, Cloudinary

- Developed a unified platform combining real-time messaging (one-to-one & group chat), classroom management, and AI-powered productivity tools
- Built WebSocket-based messaging with file sharing, message seen/delivery status, and WebRTC voice/video call integration
- Implemented role-based dashboards (Admin/Teacher/Student) with assignment submission, lecture notes sharing, attendance tracking, and discussion threads
- Integrated AI bots using Gemini API for image processing (Remove.bg), document conversion, summarization, translation, and smart chat assistance

DeenSeries — Islamic Content Streaming Platform | Self-Employed | Dhaka, Bangladesh | Jan 2025 – Dec 2026

[Live Site](#) | [GitHub](#) | Next js, Nest js, MongoDB, Redux Toolkit, RTK Query, Cloudinary

- Built a full-stack streaming platform with episode-based content delivery, responsive video player, and dynamic SEO metadata (Open Graph, sitemap, robots.txt)
- Developed a secure admin dashboard with JWT + cookie-based authentication for managing movies, series, episodes, banners, and categories
- Implemented Cloudinary image upload/deletion pipeline and publish/unpublish content workflows with reusable admin forms
- Structured backend with modular NestJS architecture (modules, database, seeds, common) and deployed on Vercel

Krishok-Palli — Agricultural Marketplace Platform | Self-Employed | Dhaka, Bangladesh | Jan 2024 – Dec 2024

[Client Live Site](#) | [Admin Live Site](#) | [GitHub](#) | React, Express js, MongoDB, JWT, Cloudinary, Resend, i18next

- Built a dual-application platform: customer marketplace and admin panel, connected to a shared Express.js REST API with MongoDB
- Implemented JWT authentication, shopping cart, wishlist, and product browsing with search/filter for seasonal vegetables
- Developed admin CRUD for user management, vegetable listings, and platform settings with bilingual content support (English/Bengali via i18next)
- Integrated Cloudinary for image uploads, Resend for transactional emails, and weather API for location-based farming updates

EDUCATION

Bangladesh University of Business and Technology (BUBT)

City: Dhaka

State: Dhaka Division, Bangladesh

Bachelor of Science in Computer Science & Engineering

2022 – Present

Tamirul Millat Kamil Madrasah (TMKM)

City: Tongi, Gazipur

State: Dhaka Division, Bangladesh

Higher Secondary Certificate (HSC)

2020 – 2021

ACHIEVEMENTS

Competed in multiple Inter-University Programming Contests (IUPCs) and intra-university hackathons, solving complex algorithmic problems using C++
